

HORIZON RESTAURANT GROUP

PLAN DE EXPANSIÓN GLOBAL

De Cártama al mundo: 12 formatos de local, 50 marcas propias
y un mapa de 147.884 municipios en todos los países.

10 de las 50 marcas propias del grupo · el resto en la última página de este documento

Por qué empezamos en Cártama

Horizon Restaurant Group nace en Cártama (Málaga, Andalucía) como laboratorio de marca: un municipio de tamaño medio, bien conectado con la capital y la Costa del Sol, con casco histórico, ensanche y polígonos, donde probar a la vez formato de calle, food truck y flagship antes de escalar a las cabeceras de zona vecinas.

La expansión sigue círculos concéntricos: del municipio a su zona natural (≈26 km, el mismo radio que agrupa los cuadernos del atlas), de la zona a la provincia, de la provincia a la comunidad autónoma, de España al continente y del continente al resto del mundo. En cada salto se reutiliza el mismo motor de asignación: tamaño del local según población real, formato según el distrito real del municipio (playa, estación, polígono, centro comercial, azotea de gran ciudad) y mezcla de marcas ponderada por la cocina que más se consume en cada país.

Hoja de ruta en una tabla

Fase	Ámbito	Objetivo de locales
Fase 0	Cártama (piloto)	12 locales
Fase 1	Zona Cártama (≈26 km)	37 locales
Fase 2	Costa del Sol / área de Málaga	530 locales
Fase 3	Provincia de Málaga	898 locales
Fase 4	Andalucía	5.270 locales
Fase 5	España	32.128 locales
Fase 6	Europa (resto)	494.338 locales
Fase 7	Asia y Oriente Medio	499.583 locales
Fase 8	América del Norte y Central	287.357 locales
Fase 9	América del Sur	137.270 locales
Fase 10	África	163.536 locales
Fase 11	Oceanía → cobertura mundial total	1.649.119 locales

Cómo decidimos el formato de cada local

En cada municipio, el tamaño y el formato del local no se eligen a mano: dependen de la población real (GeoNames) y de si existe de verdad esa característica en el municipio, según OpenStreetMap (calle peatonal, playa, estación de metro o tren). Este es el catálogo de formatos que ya usa el motor del atlas y que replicamos en cada fase de esta expansión:

Formato	Aforo	Superficie	Condición real de asignación
Kiosco	8 pl	22 m²	Población mínima; formato de entrada en cualquier municipio
Barra/Bistró	16 pl	60 m²	
Local	42 pl	140 m²	Formato base, disponible en cualquier municipio
Local grande	80 pl	260 m²	
C. fantasma	6 pl	38 m²	Desde ≈3.500 hab.: cocina fantasma centrada en delivery
Flagship	140 pl	480 m²	Desde ≈22.000 hab.: buque insignia de la marca en la zona
Food hall	168 pl	640 m²	Desde ≈70.000 hab. y solo en las ciudades más grandes del país
Estadio	480 pl	2800 m²	Desde ≈220.000 hab. y solo en las ciudades más grandes del país
Kiosco de playa	6 pl	14 m²	Solo si hay playa real cerca (OSM)
Kiosco de estación	10 pl	18 m²	Solo si hay metro/cercanías real cerca (OSM)
Local de centro comer...	36 pl	110 m²	Desde ≈35.000 hab., en ciudades con centro comercial
Drive-thru	24 pl	90 m²	Desde ≈15.000 hab., en polígono o periferia con tráfico
Rooftop	90 pl	230 m²	Desde ≈300.000 hab., en el centro de grandes ciudades

Además, las 50 marcas del grupo no se reparten igual en todos los países: en cada uno pesa más la cocina que de verdad se consume allí (japonesa en Japón, india en India, mediterránea y tapas en España, barbacoa y hamburguesas en Estados Unidos...), con variedad aleatoria real entre municipios de tamaño parecido.

Locales en propiedad

Cártama es el municipio de partida: casco antiguo, ensanche del este y una estación de cercanías propia (Estación de Cártama), a 19 km de Málaga capital. La cocina dominante en España es mediterránea, tapas y brunch, así que el primer lote de locales prioriza esas marcas y añade algo de lujo y comida rápida para completar la oferta del pueblo.

Marca	Cocina	Formato	Aforo	Barrio	Inversión
Baker Street	horno y brunch	Drive-thru	28 pl	Este	Alq. 583 €/mes
Noir	alta cocina	Local	48 pl	Este	Alq. 1.003 €/mes
ChocoLab	chocolate	Barra/Bistró	14 pl	Este	Alq. 239 €/mes
Oceanic	mariscos de lujo	Local grande	66 pl	Este	Alq. 1.815 €/mes
The Signature	alta cocina firma	Local	47 pl	Este	Alq. 838 €/mes
Fire & Smoke	barbacoa	Local	39 pl	Casco	Compra 111.672 €
Terra	mediterránea de autor	Local grande	84 pl	Este	Compra 171.720 €
The Garden Table	vegetariana	Local grande	71 pl	Este	Alq. 1.893 €/mes
Maré	pescado y mariscos	Drive-thru	24 pl	Este	Alq. 489 €/mes
Napoli 72	pizza napolitana	Local grande	66 pl	Este	Compra 243.216 €
Buenos Aires 1870	parrilla argentina	Local grande	77 pl	Este	Alq. 1.618 €/mes
Horizon Café	café y desayunos	Local grande	73 pl	Este	Alq. 1.450 €/mes

Cártama y sus pueblos vecinos

Municipio	Provincia	Habitantes	Locales
Cártama	Andalucía	21.313	12
Alora	Andalucía	12.951	7
Pizarra	Andalucía	7.345	6
Estación de Cártama	Andalucía	5.000	6
Almogía	Andalucía	4.231	6
TOTAL zona Cártama	5 municipios	50.840	37

Álora, Pizarra, Estación de Cártama y Almogía completan la primera corona: municipios a menos de 26 km que ya comparten proveedores, personal y clientela con Cártama. Es la misma zona que agruparía un solo cuaderno del atlas.

Costa del Sol y área de Málaga (≈35 km)

Cabecera de zona	Distancia	Municipios	Habitantes	Locales
Cártama	0 km	5	50.840	37
Alhaurín de la Torre	8 km	1	35.114	20
Alhaurín el Grande	9 km	1	23.319	13
Coín	12 km	7	36.312	48
Mijas	13 km	1	80.630	45
Benalmádena	14 km	1	58.854	33
Arroyo de la Miel	15 km	1	17.763	10
Torremolinos	16 km	1	65.448	36
Málaga	19 km	1	592.346	64
Fuengirola	19 km	1	71.482	40
Marbella	31 km	3	160.103	76
Rincón de la Victoria	32 km	5	59.290	47
Antequera	35 km	7	73.874	61
TOTAL área metropolitana		35	1.325.375	530

Con Málaga capital, Marbella, Mijas, Fuengirola, Torremolinos y Benalmádena como cabeceras grandes, esta corona añade formatos que Cártama no tiene: kiosco de playa en el litoral, flagship y food hall en Málaga capital, y el primer rooftop del grupo si la ciudad supera el umbral de población.

Formatos de local

El punto de llegada es el mismo modelo que hoy alimenta el atlas mundial de Horizon: 1.649.119 locales potenciales en 147.884 municipios de todos los países, cada uno con dirección real de OpenStreetMap, tamaño según su población, formato según las características reales de la ciudad y mezcla de marcas ponderada por la cocina que más se consume en esa zona.

Progresión acumulada, fase a fase

Fase	Alcance acumulado	Locales acumulados	% del objetivo mundial
Fase 0	Cártama	12	0.0%
Fase 1	Zona Cártama	37	0.0%
Fase 2	Costa del Sol	530	0.0%
Fase 3	Prov. Málaga	898	0.1%
Fase 4	Andalucía	5.270	0.3%
Fase 5	España	32.128	1.9%
Fase 6	+ Europa	526.466	31.9%
Fase 7	+ Asia/O. Medio	1.026.049	62.2%
Fase 8	+ América N/C	1.313.406	79.6%
Fase 9	+ América del Sur	1.450.676	88.0%
Fase 10	+ África	1.614.212	97.9%
Fase 11	Mundo completo	1.649.119	100.0%

Riesgos y palancas de la expansión

Palancas a favor

- El motor de datos es el mismo en todas las fases: no hay que rediseñar el modelo al cruzar fronteras, solo cambia el país de entrada.
- La cocina dominante por país ya prioriza sabores locales, lo que reduce el riesgo de lanzar una marca equivocada en el primer lote.
- Los formatos ligados a la ciudad real (playa, estación, mall, polígono, azotea) evitan sobreconstruir formatos caros donde no hay demanda para ellos.
- Cada fase reutiliza la infraestructura de la anterior: proveedores, personal formado y conocimiento de marca de la zona vecina.

Riesgos a vigilar

- Food hall y estadio se aproximan a partir de la población de la ciudad, no de un mercado o estadio verificado uno a uno; conviene validar sobre el terreno antes de construir esos formatos concretos.
- La estacionalidad turística de la Costa del Sol (fase 2) puede distorsionar la demanda real frente a la estimada por población censada.
- En mercados con alquileres muy altos (grandes capitales asiáticas y norteamericanas) el ritmo de apertura debe ajustarse al flujo de caja, no solo al mapa.
- La normativa local de licencias y horarios varía mucho entre fases; cada salto de país requiere validación legal propia antes de firmar el primer local.

Del plan regional al calendario por marca

Las fases 0 a 11 reparten el territorio (de Cártama al mundo); a partir de aquí, cada una de las 50 marcas propias ejecuta ese reparto con su propio calendario de apertura, dividido en 500 fases — un PDF por fase, 25.000 documentos en total, entregados en 50 ZIP (uno por marca, con sus 500 fases dentro).

El orden de apertura dentro de cada marca es aleatorio real y muy salteado por el mundo: no sigue el orden geográfico de este documento, así que una marca puede abrir en Londres, seguir por doce ciudades de otros continentes y volver a abrir en Londres varias fases después. Lo único fijo es el calendario: la fase N cae siempre en el mismo mes para las 50 marcas, así que los planes son comparables fase a fase.

enero 2027
Fase 1 (inicio del calendario)

500
Fases por marca

50
Marcas · calendario propio

25.000
PDF de fase en total

Calendario común

Parámetro	Valor
Cadencia	1 fase = 1 mes natural, igual para las 50 marcas
Fase 1	enero 2027
Fase 500	agosto 2068
Duración total del calendario	500 meses (~42 años)
Locales del modelo (50 marcas, 500 fases)	1.649.119
Ritmo medio por marca y fase	≈66 locales/fase
Ritmo medio del grupo (50 marcas) por fase	≈3298 locales/mes

El total de 500 fases por marca reparte, en cada una, los locales que le corresponden a esa marca según la cocina dominante de cada país (igual que en el atlas): unas marcas de comida rápida superan los 38.000 locales a lo largo del calendario; algunas marcas de lujo, más selectivas, se quedan cerca de los 30.000. El detalle exacto de cada marca está en el anexo final de este documento y, fase a fase, en su propio ZIP.

Modelo de inversión por local

Cada local de los PDF de fase por marca lleva cuatro partidas de inversión estimada, calculadas a partir del tamaño real del formato (m² y aforo) y del nivel de costes del país (salario/hora de js/world.js, la misma fuente que usa el simulador para sueldos e inflación):

- Alquiler / Compra: el 72% de los locales se abren en alquiler (fianza + 6 meses de renta); el resto se compra, a un precio $\approx$ alquiler mensual $\times$ 108 (misma fórmula que el simulador).
- Obra: $\approx$ 950 €/m² en España, escalado por el salario/hora del país frente al de España (4,2 €/h).
- Mobiliario: $\approx$ 300 €/m² en España, con el mismo escalado por coste laboral del país.
- Stock inicial: $\approx$ 140 €/plaza en España (materia prima, vajilla, uniformes de arranque), también escalado.

Ejemplo: un Local (42 plazas, 140 m²) en tres países

País	Salario/h	Obra	Mobiliario	Stock inicial	Subtotal*
España	4.2 €/h	133.000 €	42.000 €	5.880 €	180.880 €
Estados Unidos	6.5 €/h	205.833 €	65.000 €	9.100 €	279.933 €
India	0.3 €/h	15.960 €	5.040 €	706 €	21.706 €

* Subtotal de obra + mobiliario + stock inicial; no incluye alquiler/compra del local.

Riesgos legales, fiscales y de tipo de cambio por continente

Cada vez que una marca entra por primera vez en un país nuevo, su PDF de fase incluye esta misma nota de riesgo, con el impuesto de sociedades y el IVA reales del país (js/world.js). Aquí va el resumen por continente, con los tres países de más peso de cada uno.

Europa

Mercado único con licencias armonizadas en muchos trámites, pero sanidad, horarios y urbanismo se deciden a nivel municipal. El IVA y el impuesto de sociedades varían mucho entre países (del 9% al 25%+ de IVA); el euro cubre la mayoría, con riesgo de cambio en Europa del Este y Reino Unido.

País de referencia	Imp. sociedades	IVA	Locales potenciales
Francia	33%	20%	64.604
Alemania	40%	16%	64.045
Rusia	24%	20%	54.316

Asia

Marco muy heterogéneo: desde apertura casi inmediata (Emiratos, Singapur) hasta control de capital extranjero y socios locales obligatorios (India, Indonesia, Vietnam, China). Riesgo de cambio alto salvo en las divisas ancladas al dólar del Golfo.

País de referencia	Imp. sociedades	IVA	Locales potenciales
India	35%	12%	116.627
China	33%	17%	88.721
Japón	30%	5%	46.020

América del Norte y Central

EE. UU. y Canadá tienen licencias rápidas pero reguladas estado a estado/provincia a provincia (alcohol, sanidad, salario mínimo). México y Centroamérica añaden aranceles de importación de maquinaria y variabilidad cambiaria relevante en pesos y córdobas/quetzales.

País de referencia	Imp. sociedades	IVA	Locales potenciales
Estados Unidos	35%	0%	164.067
México	35%	15%	66.781
Canadá	26%	7%	27.111

América del Sur

Alta carga fiscal e inflación crónica en varios países (Argentina, Venezuela), con control de cambios y restricciones a la repatriación de beneficios. Brasil exige homologación sanitaria estatal además de la federal.

País de referencia	Imp. sociedades	IVA	Locales potenciales
Brasil	34%	17%	84.046
Argentina	35%	21%	13.743
Colombia	35%	16%	12.433

África

Licencias de importación de maquinaria y menaje son el mayor cuello de botella; la moneda local suele depreciarse rápido frente al euro, por lo que los contratos de alquiler en divisas fuertes son habituales en las capitales.

País de referencia	Imp. sociedades	IVA	Locales potenciales
Costa de Marfil	25%	18%	25.717
Sudáfrica	29%	14%	13.369
Nigeria	30%	5%	12.294

Oceanía

Marco regulatorio similar al británico, estable y previsible, pero con costes laborales y de construcción altos y mercados pequeños fuera de las grandes ciudades costeras.

País de referencia	Imp. sociedades	IVA	Locales potenciales
Australia	30%	10%	26.990
Nueva Zelanda	33%	12%	5.041
Papúa Nueva Guinea	—	—	451

Todos los municipios del mundo, país a país

Listado completo de los 147.884 municipios del mundo con población registrada en GeoNames — el mismo universo que alimenta el atlas y el reparto de las 50 marcas — ordenado de forma jerárquica y geográfica: continente, país (de mayor a menor tamaño) y, dentro de cada país, municipio de mayor a menor población. Es la base territorial completa sobre la que se construye el calendario aleatorio de cada marca.
